• The ONAC Native EITC/VITA Network is comprised of Native VITA site coordinators and advocates. The purpose is to share resources and opportunities, to provide a platform for interaction among Native site coordinators (American Indians, Alaska Natives, and Native Hawaiians), and to bring concerns from Native VITA sites to appropriate parties. We have been instrumental in arranging scholarships for Native site practitioners to attend TON conferences and give priority in our recommendations to those listed in our directory.

• The network has 191 participants. Some participants share information of interest to benefit other network members. We are usually able to help answer questions or steer in the proper direction to obtain answers.
ONAC Research: Providing Remote and Socially Distanced Native VITA Services

• ONAC generated a handout, with information provided by ONAC grantees, regarding how they delivered remote and/or socially distanced Volunteer Income Tax Assistance (VITA) services during the 2020 tax season and shutdowns associated with the COVID-19 pandemic.

• Due to necessity, both tax preparers and filers are now using technology that they may not have used before to successfully complete remote tax filings. While providing VITA services to their local Native communities, these Native-led VITA programs are striving to keep both the preparers and filers as safe as possible.

• We hope this information might be useful to those providing Native VITA services.

• A big thank you to the Native VITA programs that shared their innovations.
